AQUATOR

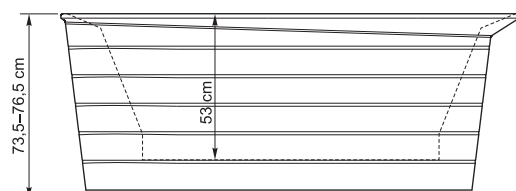

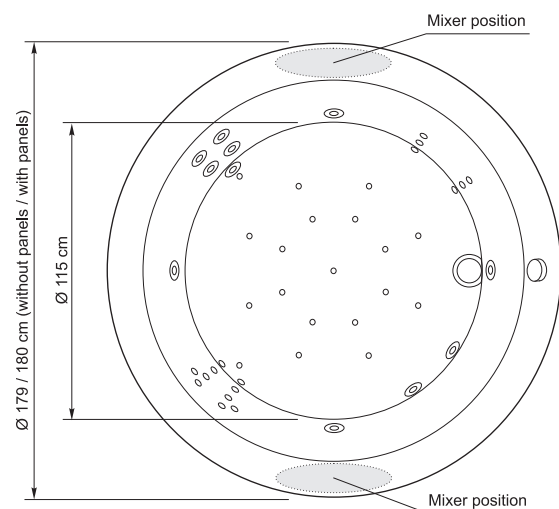

DESIGN BY AQUATOR 2002

Leonardo belongs to Aquator's **"Rustica"** collection, and is inspired by the wear marks on old stairs and doorsills. These marks of character bring to mind the echoes of time passed and the people who have used them.

FEATURES

- Freestanding bath.
- For two users, "cross-seated" configuration allows the most comfort.
- Massage with the same amount of power as a therapeutic tub.
- Spine protected from strong, direct hydro-massage.
- Two different back- and foot massages.
- Design of the front panel allows for "walling in" the bath on different height levels.
- Aquator Touch-screen. Unique driving system, which makes using the various massage baths more comprehensive, precise and delicate. Extremely comfortable to use.
- Price includes all possible massage components (back, side, hand and foot massage). There are 27 hydro-jets and 19 air-jets in total.
- Only top quality components and materials are used in production (Koller - Austria, Lucite - Great Britain, Röhm-Degussa - Germany).
- DME Award 2007 (Design Management Europe Award 2007).
